

Vascular and Endovascular Surgeon

Private Practice Opportunity – Toowoomba, QUEENSLAND St Andrew's Toowoomba Hospital

An exciting opportunity exists for a Vascular Surgeon to establish a busy private practice in Australia's second largest inland city, only 90 minutes from Brisbane and host to a large referral base of over 300,000 people.

The position will provide professional satisfaction by offering

- Ready access to a range of vascular procedures, particularly endovascular;
- Access to the latest Cardiac Catheter/Vascular Laboratory equipped with a brand new Siemens Artis Zee Floor mounted system providing the best image quality and vascular analysis packages; the Laboratory is also located within the theatre environment to ensure best practice.
- A strong academic interest as St Andrew's Hospital is a teaching hospital for the University of Queensland through the UQ Rural Clinical School.
- Attractive package and relocation assistance, as well as support with setting up your private practice into quality medical suites and marketing your practice to the community.

St Andrew's Toowoomba Hospital is a modern 137 bed acute care private hospital with 5 modern Operating Theatres and Day Surgery Unit. The hospital is well equipped with the latest technology, an 8 bed Intensive Care Unit and Medical Emergency Team, the only private Renal Unit in Toowoomba, as well as a busy General Practice Medical Centre which provides facilities for a large onsite referring group practice.

Toowoomba offers a green change with a high standard of living, whilst being very close to a major metropolitan centre and the Gold Coast. Enjoy the best of both worlds in a beautiful city with a strong social and cultural element, affordable housing and a high standard of primary, secondary and tertiary education facilities.

St Andrew's Toowoomba Hospital will take care of your needs as you establish yourself seamlessly into private practice.
